

Inspiring a younger generation into STEM and the Aviation Industry

Our goal: Inspiring young people to explore careers in STEM and aviation, to support and encourage their future career choices.

How can you help? By sharing your story

Name & job role:	Jaskiran Bhuller Aerodrome Inspector
What did you enjoy doing when you were younger?	Reading/ watching documentaries/ follow fashion
What were your favourite subjects in school? Why?	Geography/ Accounts/ English
What or who inspired you to study these?	Interest
Did you do work experience? Where and did it help in choosing your career path?	N/A
What was your first job?	Security Officer at Heathrow Airport
How did you arrive where you are in your career?	Follow an academic route into aviation followed by jobs in aviation sector.
What do you love about your current job?	Everything. Being able to regulate a sector of the industry and be a part of the future aviation policies
What were the biggest challenges/barriers you had to overcome?	Moving to a different country at the age of 17 alone, adapting to the living and working culture without a lot of support or knowing who to turn to for help.
Who have you looked up to and why?	No one in specific but just other high achieving women overcome different obstacles in their way.

What is your ambition?	Currently, just become better at what I do and collect experiences along the way.
What is the best advice you were given?	There will be downs along with the up-s and vice versa but the beauty is that no (good or bad) time phase stays
What advice would you give a younger you?	Don't be shy, let the world be your oyster.

Any additional comments:

Thank you for sharing your journey.
